**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

**Claims 1-9 and 12-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Leppard et al. US 5,942,290.**

Regarding claim 1, Leppard discloses a process for preparation of acylphosphine oxide compounds comprising melting and then slowly cooling the melt and seeding crystals (see paragraph bridging columns 2-3).

Leppard fails to disclose external stress, shearing, and/or internal agitation.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to apply external stress, shearing, and/or internal agitation to the process of Leppard because Leppard discloses the compounds mixed in the melted state (column 2, lines 63-64), which would motivate an

Art Unit: 1793

ordinarily skilled artisan to apply shearing or agitation to accomplish the disclosed mixing.

Regarding claims 2-3, it would have been obvious to one of ordinary skill to select a diameter and an optimum percentage of acylphosphine oxide including at least 85% arrived at through routine experimentation.

Regarding claims 4-8 and 12-16, Leppard discloses examples of polar solvents (column 2).

Regarding claim 9, Leppard discloses acylphosphine oxide.

Regarding claims 17-18, Leppard discloses mixing (Example 7), which would at least suggest agitation to an ordinarily skilled artisan.

**Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over DE 31 39 984 A in view of Heinz G. G O Becker et al.**

Regarding claims 1-3, according to the evidence of record, specifically the foreign language references and search report, the claimed process for preparation of acylphosphine would have been obvious to one of ordinary skill in the art at the time the invention was made because it would have been obvious to one of ordinary skill to combine the teachings of DE '984 and Heinz to arrive at the claimed process (see the filed references and the German search report). Applicant is invited, but not required,

to submit an English translation of the references and/or search report above.

***Allowable Subject Matter***

Claims 10-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: the prior art does not disclose or fairly suggest the specifically claimed acylphosphine oxide compounds in the process for preparing an acylphosphine oxide solid with a melting point above room temperature of the instant claims 10-11.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action

Art Unit: 1793

is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
